

A complete List of all Ladybird Books published between 1940 and the early 1980s (and quite a lot of books after that date)

Why this date? Before 1972 the publisher was known as Wills & Hepworth Ltd and was run by a small board of directors. In 1972 the directors retired and the company was sold to the Pearson Financial Group. The name 'Wills & Hepworth' was dropped and much of what had made a 'classic' Ladybird book began to change. The content and quality began to decline. In 1999 UK print operations were closed down. This date captures the best of Ladybird – but also allows collectors to complete sets that started in the 'golden years'.

Please let me know if you find anything I've missed or spot any errors.

NB Any book issued before 1964 will originally have had a dustwapper over its boards.

Any book published after 1965 will not have originally had a dustwrapper. The date found *on the title page of most Ladybird books* is a very unreliable guide as to the age of any particular edition. In general, the title page states date of publication of the title's first edition and not the date of that particular copy.

For the purpose of identification, only the illustrator is usually stated here - rarely the writer - as the illustrator tends to be a more reliable way of identifying two different books or editions with the same title.

**Note: there were two different versions of all the Key Words books published between 1964 and 1980. In some cases there were 3 versions. Books 1a -3c, 5a, and 8a also have a 'transition' version – new style artwork but old style format and cover picture. Hence two and sometimes 3 of each title are listed.**
